

DIRECTOR OF CENTRAL INTELLIGENCE
SECURITY COMMITTEE
COMPARTMENTATION SUBCOMMITTEE

6 SEP 1984

MEMORANDUM FOR: [] Chairman, SECOM

STAT

SUBJECT: Proposed Revisions to DCID 1/19

1. Per your memorandum, SECOM-D-189, 16 August 1984, Procedures for Handling Classified Material, the Compartmentation Subcommittee met 4 September 1984 to review DCID 1/19, paragraph 33, which concerns couriering SCI aboard commercial aircraft. Attachment 1 represents the subcommittee's recommendation for an addition to the present subparagraph 33a.

2. The subcommittee also reopened the matter of marking Header Sheets. This was prompted by your memorandum [] SECOM-D-182, 13 August 1984, SCI Marking Requirements. In it, you expressed a decision to revise DCID 1/19 so that the directive would include marking requirements for Header Sheets. The subcommittee developed two recommendations for change. These are at Attachment 2.

STAT

3. I plan to address these two issues at the 12 September 1984 meeting of the SECOM.
